Accounting period: 01.01.2025 to 31.12.2025

Description of system boundaries: The greenhouse gas balance of PIERDREI Hotel HafenCity Hamburg for the year 2025 was prepared in accordance with the recognized standard "Green House Gas Protocol" and covers the areas within Scope 1-3 that are under the control of the business. Recognized databases such as Gemis 5.1, EEW, UBA or ifeu were used to determine the emissions. A safety margin of 10% was applied in order to account for any quantities not yet included in Scope 3. Some extrapolations were made in Scope 3, which entail a degree of inaccuracy. Note: This certificate documents the operational greenhouse gas balance; it does not constitute an award, certification or independent verification. No promotional claims such as "climate-neutral" or "climate-friendly" can be derived from it.

The balance was prepared by:
