## CAMPER CITY AT THE HAFENCITY

In the midst of the Hafencity, positioned 7 metres up, a unique outdoor experience awaits, which is unforgettable for young and old alike. It's a special experience for fathers and sons, mothers and daughters or grandfathers and grandchildren - in fact... for the whole family.

Days are spent exploring, discovering and making things together. In the evening, the lights at Camper City come on and old stories are recounted. Adults read their children stories to send them to sleep, before the little rascals drift off into a blissful slumber amidst the murmurings of an international port.

## KITCHENS ✂

The menu at KITCHENS is inspired by the best cuisines and chefs in the world, whether they come from spectacular gastronomy or a fascinating family. There are places all over the world where raw materials and traditions, methods of preparation and presentation are handled in such an unusual way that it is worth taking a closer look. From the multitude of these impressions a very special recipe is derived, which can only be found at KITCHENS.

## Three Fingers

DAY & NIGHT

Creative minds await locals and globetrotters with fresh ingredients, the finest spirits and original snacks at Three Fingers Bar and its outdoor area, PIAZZA. And all this in the middle of HafenCity.
